Work Experience

WD. Philippines Corp.

Pasig City

WordPress Developer

August 2024 - Present

- Developed and maintained fully custom WordPress themes from scratch, ensuring responsive, cross-browser compatibility for desktop, tablet, and mobile devices.
- Integrated custom post types (CPT), taxonomies, and Advanced Custom Fields (ACF) to support dynamic, scalable content structures for client websites.
- Ensured adherence to SEO best practices and security hardening across all builds.

Dynamic Global Soft. Inc.

Cainta, Rizal

Web Developer Intern

February 2024 – April 2024

- Responsible for updating outdated versions to current standards and enhancing existing projects with new features and functionalities.
- Assisted in developing front-end applications using React.js and modern JavaScript (ES6+).
- Participated in debugging and testing workflows using React Developer Tools.

Education

STI Ortigas-Cainta

Bachelor of Science in Computer Science

June 2020 - July 2024

Thesis: TriComp (Game Development)
